Mr. Jack R. Craig
Project Manager
U.S. DOE FEMP
P. O. Box 398705
Cincinnati, Ohio 45239-8705

Dear Mr. Craig:

Listed below are Ohio EPA responses for the following documents:

1. Removal Action 19 - Plant 7 Dismantling Work Plan - Approved
2. Termination of the KC-2 Warehouse Well Removal Action - Ohio EPA agrees with the approach that the well will be monitored and then properly abandoned when the D & D of the KC-2 warehouse occurs.

Specific comment - In DOE's fact sheet concerning this decision (Page 3, third paragraph) it is stated that the well will be "left open". This term "left open" should be clarified. In addition, DOE should immediately install a lockable outer casing around the well to prevent accidental introduction of material into the well.

If you have any questions please feel free to contact Kurt Kollar or me.

Sincerely,

Graham E. Mitchell
Project Manager
